FAVORS LABOR UNIONS.

Apostle Woodruff Refers to His Tabernacle Address.

Apostle A. O. Woodruff states that he is not opposed to labor unions. At the recent conference of the Mormon church he was one of the speakers. He says that in the summary of his speech published at that time he is placed in the position of appearing antagonistic to unions, Gentiles and other interests. He states that some he is not opposed to labor unions. At other interests. He states that some

other interests. He states that some of his remarks were misconstrued. He referred to the fact that only a few members of the church are employed upon the local railroads. Only one Mormon in 100, he safd, is employed upon the roads which the Mormons built or helped to build.

"Our people," he said, "have taken the crumbs long enough, when others have been feeding from the loaf. I want to see them have a more equal division in the industries. I am in favor of our people joining the unions, or, if necessary, forming unions of themselves. In the article I am quoted as using the word. I have never been antagonistic to those not of our belief. I think every one has a right to his opinions, but I am interested in my own people and want them to want to see them have a more equal division in the industries. Lynch and King Want to Escape Death Penalty For Murder of Prowse.

"The trail of the serpent is evident in every turn in the proceedings of this trial," said District Attorney Eichnor yesterday in commenting on the prolific affidavits and countless stories which have been circulated concerning the innocence of Robert L. King of the murder of Godfrey Prowse in the Sheep Ranch hold-up. "The attorneys for the defendants have, in the affidavit of the boy Wittemburg, insinuated and in fact stated that influence was brought to bear on the lad in order to produce the testing.

Assistant City Attorney Schulder made an eloquent plea for the convic-tion of the defendant.
"Your honor," he said, "the use of a vegetable as a means of assault is

ikely to establish a precedent which will result in widespread disaster and ruin. Potatoes are meant to eat, and are not supposed to be used as a weapon of offense or defense. If a potato can be used to batter in portions of the skull, is it not likely that other vegetables will be used for the same purpose? Take for instance, the carrot; with that deadly vegetable, sharppointed as it is, it is entirely possible that a man may be stabbed to death. The weight of a German cabbage falling a distance of forty feet is likely to cave in the strongest cranium, the juice of onions injected into the eye might cause ophthalmia and there are other vegetables which might easily cause permanent injury or sudden death.

"With these facts in view I would likely to establish a precedent which
